Specification Summary

Brand	Evva
Product type	Key & Turn Euro

Product Description

The EVVA ICS KDZ Euro Key & Turn Cylinder is a high-security locking solution designed to offer exceptional protection and convenience. Supplied as a keyed alike pair, both cylinders in this set are operated by the same keys, making them perfect for properties with multiple entry points. This pair is supplied complete with six keys and a connecting screw.

The ICS (Inner Code System) is a highly durable, patent-protected reversible key system. It is designed with maximum keying potential in mind, allowing master key systems to be planned with future extensions in mind. With both legal and technical key protection mechanisms, the ICS system provides a high degree of protection against unauthorised key copying.

These cylinders are available in various sizes, with overall sizes ranging from 36/T36 to 51/T51 and body lengths from 72mm to 102mm. Please select your required A Side and B Side dimensions from the options below.

A variety of optional special features, such as clutch cams (SOS), cog wheel cams, and classroom functions, are also available upon request - please contact us for more details.

Technical Specifications

- **Brand:** Evva
- **Cylinder Profile:** Euro
- **Cylinder System:** Evva ICS
- **Cylinder Type:** Key & Turn Euro
- **Finish:** Nickel Plated
- **Keyed:** Keyed Alike Pair
- **Keys Supplied:** 6
- **Mechanism:** 10 Pin
- **Standards:** TS 007:2015 - 3 Star, BS EN 1303:2005, BS EN 1634
- **Fire Tested:** Grade B

Key Features

- **Keyed Alike Pair:** Both cylinders are operated by the same keys for ultimate convenience across multiple entry points
- **3-Star Security:** TS007 3-Star rated and BSI Kitemarked to guarantee high-level protection
- **Patented Protection:** Reversible key system with legal and technical protection against unauthorised key copying
- **Master Key Compatible:** High keying potential makes it ideal for planning complex master key systems
- **Durable Construction:** Features a robust 10-pin mechanism and Grade B fire testing
- **Complete Package:** Supplied with 6 keys and connecting screws

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as “start-up energy since 1919” (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
