Specification Summary

Brand	Geze
Product type	Floor

Product Description

The GEZE TS550 Cover Plate is a high-quality, hard-wearing protective cover designed specifically to suit GEZE TS 550 floor springs. This cover plate not only provides a neat, stylish, and professional finish to your door installation, but it also plays a vital role in extending the lifespan of your floor spring mechanism. By shielding the internal components from dust, dirt, and general wear, it helps maintain smooth and reliable door closer operation over time.

This cover plate is available in multiple options to suit your aesthetic and technical requirements. Choose between a Stainless Steel or Polished Brass finish, with weights ranging from 397g to 420g. Depending on your selection, manufacturer references include 125888 and 133020, with corresponding barcodes 5055120786513 and

5055120786520.

Please select your preferred finish, weight, manufacturer reference, and barcode from the options below.

Brand Profile

Geze

GEZE is a German, **family-owned** global manufacturer of **door, window, and safety technology**, best known in the trade for **door closers, automatic door systems** (sliding/swing/revolving), **window drives**, and **smoke & heat extraction (SHEV)** solutions used in modern building safety and automation.

Founded in **1863**, GEZE remains independently owned and headquartered in **Leonberg**, near Stuttgart - one of the reasons it's often described as a "proper engineering company" rather than a brand label slapped on a catalogue.

In practical terms, GEZE lives in the space where **comfort meets compliance**:

- **Door closing**: from standard overhead closers to integrated systems for higher-spec doors and fire/smoke applications.
- **Automatic entrances**: operators for swing and sliding doors used in public buildings, retail, airports, offices—accessibility and flow without sacrificing safety.
- **Safety + building automation**: electrically operated window systems for **natural ventilation** and for **smoke and heat extraction** in a fire, plus increasing emphasis on digital networking of doors/windows in "smart building" setups.

Scale-wise, GEZE states it has **3,000+ employees worldwide, 37 subsidiaries**, and reported **€507m+ turnover (FY 2022/23)** - big enough to be everywhere, still small enough to feel focused.
