Is Cylinder

**Product Description**

The GreenteQ Gamma Euro Key & Turn Cylinder is a reliable, high-quality 6-pin profile cylinder designed to offer convenient keyless egress from the inside of a property. Ideal for residential and commercial doors, this thumbturn cylinder provides robust security and smooth operation.

Constructed with a 6-pin tumbler mechanism, the Gamma cylinder offers excellent protection against common picking methods, boasting over 100,000 possible key combinations to achieve a Key Security Grade 6. For physical attack resistance, it features hardened anti-drill pins that provide a Grade 2 attack resistance rating against drilling, chiselling, and twisting.

This cylinder is tested to BS EN 1303 (Cylinders for Locks) with a 16000C62 classification, including endurance testing up to 100,000 cycles. It also achieves Grade 3 corrosion resistance under BS EN 1670, ensuring long-lasting performance even in challenging environments.

The GreenteQ Gamma Key & Turn Cylinder is available in multiple overall lengths (ranging from 70mm to 90mm) and a choice of finishes, including Nickel Plated and Polished Brass. Please select your required size and finish from the options below. Each cylinder is supplied with 3 keys as standard.

## Technical Specifications

- **Cylinder Profile:** Euro
- **Cylinder Type:** Key & Turn Euro
- **Mechanism:** 6 Pin
- **Standards:** BS EN 1303:2005 (Classification 16000C62)
- **Corrosion Resistance:** Grade 3 (BS EN 1670)
- **Fire Tested:** Grade 0
- **Keying:** Keyed To Differ
- **Keys Supplied:** 3
- **Finishes:** Nickel Plated or Polished Brass (choose from options below)
- **Overall Lengths:** 70mm, 80mm, or 90mm (choose from options below)
- **Cylinder Sizes Overall:** 35/T35, 40/T40, or 45/T45 (choose from options below)

## Key Features

- **Enhanced Security:** 6-pin tumbler mechanism provides over 100,000 key combinations for high-level pick protection.
- **Attack Resistant:** Fitted with hardened anti-drill pins to achieve a Grade 2 attack resistance rating against drilling, chiselling, and twisting.
- **Highly Durable:** Endurance tested to 100,000 cycles and rated Grade 3 for corrosion resistance.
- **Convenient Operation:** Thumbturn on the inside allows for quick and easy locking or egress without a key.
- **Supplied with 3 Keys:** Ready for immediate installation with three keys included.

## Brand Profile

Greenteq

**greenteQ** (often written **Greenteq**) is the **in-house window and door hardware brand of VBH**, created to give fabricators, installers and repair/maintenance teams a dependable “one brand” option across the everyday components that make doors and windows function properly. VBH launched greenteQ as its own hardware brand in **2009**, and it’s been expanding the range ever since.

greenteQ sits squarely in the trade world: products for **uPVC/PVCu, aluminium, timber/wood and composite** windows and doors, covering both new manufacture and remedial work. The catalogue spans **locking systems, multipoint locks, handles/furniture, hinges**, and a long list of ancillaries designed to be installer-friendly and consistent to spec.

A big part of the brand identity is that it’s VBH-backed: greenteQ customers are explicitly described as benefiting from **VBH’s international product know-how**, and VBH GB notes the UK has its own greenteQ design focus to meet market-specific requirements (like **suited furniture** expectations).

On the “security hardware” end, greenteQ also sells cylinders and higher-security components you’ll see in the door trade - e.g. the **Orion** euro cylinder is marketed as **TS007 3-Star (Kitemark) approved** in VBH communications and stockist listings.
