Is Cylinder

**Product Description**

The GreenteQ Orion BS TS007 3 Star Euro Thumb Turn Cylinder offers premium high-security protection for your home, combining maximum security on the outside with keyless convenience on the inside. Fully tested and awarded the prestigious TS007 3-Star British Kitemark, this cylinder provides complete protection against lock snapping, bumping, picking, and drilling without the need for additional security handles or cylinder guards.

Engineered with a sacrificial breakpoint on the external side, the Orion cylinder is designed to snap safely at a predetermined point during an attack. This leaves the central cam protected and engages an interlocking mechanism to block further entry. For your safety, the lock remains fully operational from the inside after an attack - simply push the button on the thumbturn knob and rotate to unlock and exit.

Supplied with 5 high-security dimple keys as standard, this cylinder is available in a wide selection of sizes and in both Nickel and Polished Brass finishes. Please choose your required size and finish from the options below.

**Technical Specifications**

- **Standard:** TS007:2014+A2:2018 3-Star Kitemark approved (KM591531)

- **Security Protection:** Anti-snap, anti-bump, anti-pick, anti-drill, and anti-plug pull
- **Keys Supplied:** 5 Q-branded dimple keys
- **Finishes:** Nickel and Polished Brass (choose from the options below)
- **Sizes:** Multiple overall sizes available (choose from the options below)
- **Operation:** Key entry from the external side, thumbturn from the internal side
- **Key Differs:** Minimum 100,000 differs

## Key Features

- **TS007 3-Star Protection:** Delivers the highest level of intruder resistance without requiring specialized security handles.
- **Sacrificial Snap Zone:** External end breaks away under attack to protect the internal locking cam.
- **Emergency Exit Function:** Remains operational from the inside after a snap attack by pressing the thumbturn button and turning.
- **Multi-Point Resistance:** Hardened steel pins and rods defend against drilling, picking, bumping, and plug extraction.
- **Thumbturn Convenience:** Allows quick and easy locking or unlocking from the inside without needing a key.
- **High-Security Keys:** Supplied with 5 premium dimple keys for smooth operation and enhanced key security.
- **Versatile Options:** Available in a range of sizes and finishes to suit your door - please select from the options below.

## Brand Profile

Greenteq

**greenteQ** (often written **Greenteq**) is the **in-house window and door hardware brand of VBH**, created to give fabricators, installers and repair/maintenance teams a dependable “one brand” option across the everyday components that make doors and windows function properly. VBH launched greenteQ as its own hardware brand in **2009**, and it’s been expanding the range ever since.

greenteQ sits squarely in the trade world: products for **uPVC/PVCu, aluminium, timber/wood and composite** windows and doors, covering both new manufacture and remedial work. The catalogue spans **locking systems, multipoint locks, handles/furniture, hinges**, and a long list of ancillaries designed to be installer-friendly and consistent to spec.

A big part of the brand identity is that it’s VBH-backed: greenteQ customers are explicitly described as benefiting from **VBH’s international product know-how**, and VBH GB notes the UK has its own greenteQ design focus to meet market-specific requirements (like **suited furniture** expectations).

On the “security hardware” end, greenteQ also sells cylinders and higher-security components you’ll see in the door trade - e.g. the **Orion** euro cylinder is marketed as **TS007 3-Star (Kitemark) approved** in VBH communications and stockist listings.
