Product type	ICS

Product Description

The ICS Architectural L Bracket U300CL is a high-quality mounting solution designed specifically for use with ICS single mini magnets (slimline maglocks). Manufactured from durable anodised aluminium, this L bracket provides a robust and reliable mount for outward-opening doors.

To ensure a neat, professional installation, the bracket is supplied with a matching cover. This cover not only improves the overall aesthetic of the door frame by concealing the bracket and wiring but also provides additional protection against tampering. Please note that this bracket is designed exclusively to suit single slim magnets.

Technical Specifications

- **Brand:** ICS
- **Manufacturer Reference:** U300CL
- **Part Number:** L30065
- **Barcode:** 5056240108278
- **Material:** Anodised Aluminium
- **Dimensions:** 38mm x 27mm x 228mm
- **Weight:** 400g

- **Pack Quantity:** 1
- **Compatibility:** ICS single mini magnets (slimline maglocks) only

Key Features

- **Aesthetic Cover:** Supplied with a matching cover to conceal cables and fixings for a clean, professional finish
- **Robust Construction:** Made from high-quality anodised aluminium for durability and corrosion resistance
- **Perfect Fit:** Specifically designed to suit single slimline mini magnets
- **Secure Mounting:** Provides a reliable and sturdy mounting solution for access control installations

Brand Profile

ICS

ICS Security (ICS Security Solutions Ltd) is a UK access-control hardware brand and supplier focused on the “nuts and bolts” of electronic door control: **maglocks, electric locks/bolts, strikes, lock releases, and packaged locking kits** designed to make access-control installs cleaner and more reliable. They describe themselves as an access-control specialist founded in **2003**, with **20+ years** in the sector.

They operate from **Blisworth, Northamptonshire** (Units 1–2, JBJ Business Park, Northampton Road, NN7 3DW), supporting trade customers with a range that covers the common building blocks of access control systems.

Product-wise, ICS’s catalogue is very “installer reality”:

- **Magnetic locks** in multiple formats (standard, slimline/transom, stainless, monitored, with door status options), typically running **12–24V DC selectable** and specced by holding force (e.g., 600–1200 lbs and up).
- **Electric locks / bolts and locking kits**, including “compliant lock packages” that bundle the parts needed for controlled entry with free egress, calling out standards like **EN179 / EN1125** in their kit descriptions.
- A broader access-control “system parts” approach: they position the range as covering “all parts of access control systems,” aiming to let installers choose a complete solution from one source.
