## Specification Summary

**Brand** Ingersoll

**Product type** Cylinder Pull

## Product Description

The Ingersoll SC1/50 Cylinder Pull is a practical and stylish door accessory designed specifically to suit the Ingersoll SC1 rim cylinder. Commonly fitted alongside Ingersoll SC71 and SC73 rim locks, this cylinder pull sits neatly between the cylinder and the outside face of your door. It provides a sturdy, convenient grip to pull the door closed from the outside, helping to protect your door's finish from finger marks and wear.

Crafted to match your existing door furniture, this cylinder pull is available in three high-quality finishes: Polished Brass, Chrome Plated, and Satin Chrome. Please select your preferred finish from the options below to match your home's aesthetic.

Each pull is supplied individually carded and is quick and straightforward to install during cylinder fitting.

## Technical Specifications

- **Brand:** Ingersoll
- **Manufacturer Reference:** SC1 PULL
- **Length:** 90mm
- **Width:** 55mm
- **Weight:** 80g
- **Pack Quantity:** 1

## Brand Profile

Ingersoll

**Ingersoll** is a historic **British high-security lock brand**, best known for its distinctive **rim nightlatches** and the long-running **SC71**—a “signature” product whose chunky look and unique key profile are basically part of the brand’s identity. Ingersoll Locks Limited states it was **founded in 1949** and has focused on security-led lock design ever since.

A key part of the origin story centers on inventor **Jack W. Taylor**, who (according to a detailed brand history) conceived the idea for a **ten-lever cylinder** in **1944**, and the Ingersoll range grew from that high-security cylinder concept.

In today’s market, “Ingersoll” is still used as shorthand for **serious, mechanical, front-door security**—the kind of lock people pick when they want something robust, familiar to locksmiths, and not dependent on batteries, apps, or vibes.

Ownership-wise, the **Ingersoll trademark/maker is described as being owned by the ASSA ABLOY Group** (noting this is stated by a specialist distributor/reseller who explicitly separates themselves from the trademark owner).
