Specification Summary

Brand	Lowe & Fletcher
Product type	Nut Fix

Product Description

The Lowe & Fletcher 1436 Nut Fix Camlock is a highly versatile locking solution designed for a wide range of applications, including cupboards, cabinets, and lockers. It features a 51mm cam bar that can be conveniently adjusted and fixed in one of eight 45-degree increments, allowing for flexible installation to suit your specific requirements.

This camlock is available in multiple configurations, with body lengths of 19mm or 20mm and manufacturer references of either 1436 02 2 or 1436 03 2. It can be ordered in Keyed Alike, Keyed to Differ, or Master Keyed options, with weights ranging from 60g to 70g. Please select your preferred body length, keying option, and

manufacturer reference from the options below.

With a robust chrome-plated finish and a round head shape, this lock offers a clean, professional look alongside reliable security. It operates on the 95-97 key series, providing up to 2,000 lock combinations, and comes supplied with two keys.

Brand Profile

Lowe & Fletcher

Lowe & Fletcher is a long-established British manufacturer of **locking systems for industry**, best known for high-volume, application-specific locks like **camlocks, quarter-turns, compression locks, and electronic/keypad solutions** used on things like **enclosures, cabinets, lockers, post/parcel units, and industrial equipment**. They're a **sixth-generation, family-owned** business with roots going back to **1889**, when **John Lowe and Thomas Fletcher** founded a lockmaking firm in **Willenhall** in the Black Country—one of the historic heartlands of UK lockmaking.

Today, Lowe & Fletcher forms part of the **Lowe & Fletcher Group**, which describes two main divisions: **Locking Systems** (industrial/OEM locks) and **Fire Safety** (smoke and fire containment systems).

Operationally, their Locking Systems division includes UK operations based around the West Midlands (e.g., **Wednesbury, WS10 7DE**) and they state they have multiple operational sites across Europe and the US to serve local and specialist markets.

On the product side, their camlock range alone spans **mini camlocks, standard camlocks, slamlocks, and IP-rated water-resistant variants** (with application-driven options like tool/coin operation and different cam geometries).
