Brand Locinox

Product type Gate Closer

## Product Description

The Locinox Samson 2 Hydraulic Gate Closer is a polyvalent, high-quality solution designed for smooth and reliable gate closure in demanding outdoor environments. Specially engineered to withstand extreme weather conditions, this industrial-grade closer has been tested to operate flawlessly in temperatures ranging from -30°C to +70°C. Thanks to its patented thermal damping system, it guarantees a constant, controlled closing speed that remains unaffected by seasonal temperature fluctuations.

Installation is quick and straightforward using the included patented Quick-Fix fittings. The non-handed design makes it fully reversible, allowing it to be easily fitted to both left-handed and right-handed gates. Built for exceptional longevity, the Samson 2 has been rigorously tested to 500,000 movements, making it ideal for heavy-use applications. It is suitable for gates weighing up to 150kg with a maximum width of 2 metres, and comes complete with a 3-year manufacturer's guarantee.

## Technical Specifications

- **Brand:** Locinox
- **Manufacturer Reference:** 6040031 (L30709)
- **Finish:** Silver
- **Max Gate Weight:** 150kg
- **Max Gate Width:** 2m
- **Opening Angle:** Up to 150°
- **Temperature Range:** -30°C to +70°C
- **Handing:** Non-handed (reversible)
- **Weight:** 5.4kg
- **Guarantee:** 3 Years

## Key Features

- **Weather Resistant:** Designed specifically for outdoor use, ensuring reliable performance in extreme temperatures.
- **Constant Closing Speed:** Patented hydraulic damping system prevents speed fluctuations caused by weather changes.
- **Easy Installation:** Supplied with patented Quick-Fix fittings for fast and secure mounting.
- **Highly Durable:** Tested to 500,000 cycles for exceptional reliability and a long service life.
- **Versatile Application:** Fully reversible design suitable for both left and right-handed gates.

## Brand Profile

Locinox

**Locinox** is a Belgium-based specialist manufacturer of **gate and fence hardware**, best known in the trade for installer-friendly, high-durability components like **gate locks, hinges, gate closers, latches**, and **electro-mechanical access control** parts designed specifically for outdoor, weather-exposed gates. Their whole pitch is “make the gate hardware the least annoying part of the job,” with products engineered for fast fitting, consistent adjustment, and long service life.

The company is headquartered in **Waregem, Belgium**, and traces its origins to **1988** (often described as “over 30 years” in gate tech). Locinox supplies into **70+ countries**, positioning itself as a trendsetter in the fencing/gate world rather than a generic ironmongery line.
