Product type

Gate Closer

Product Description

The Lockey GC series automatic pedestrian gate closers are designed for both domestic and commercial use on left or right-handed metal or timber gates. Hydraulically controlled, these closers provide a smooth, soft-closing action that ensures quiet operation and prevents damage caused by slamming.

Featuring a robust, PVC-coated steel construction, the closer's force can be adjusted during installation by mounting the brackets further away from the gate post. The closing speed is pre-tensioned and pre-set, removing any risk of tampering or maladjustment after fitting. The dual bracket design allows for easy adjustment on both in-line and offset hinge configurations, and the closer can be integrated with most security or hold-open devices.

Important Installation Note: To maintain the manufacturer's warranty, gate stops must be fitted. A primary stop (often the lock itself) must restrict the gate from swinging past the post line when closing, and a second gate stop must be installed to limit the opening angle to a maximum of 90 degrees.

These gate closers are available in multiple capacities to suit gates ranging from 0.8m to 2.0m in width and up to 150kg in weight. Please select your required model from the options below.

Technical Specifications

- **Material:** Steel (Plastic Covered)
- **Finish:** Black & Silver
- **Mechanism:** Hydraulic
- **Maximum Opening Angle:** 90°
- **Handing:** Reversible (suitable for left or right-handed gates)
- **Maximum Door Weight:** 80kg to 150kg (model dependent - please choose from the options below)
- **Maximum Door Width:** 1200mm to 2000mm (model dependent - please choose from the options below)
- **Suitability:** Timber or metal gates (0.8m to 2.0m wide, up to 150kg depending on selected option)
- **Manufacturer Reference:** GC200/TB200, GC400/TB400, or GC600/TB600 (please choose from the options below)
- **Pack Quantity:** 1

Key Features

- **Soft Closing Action:** Hydraulic control provides a quiet, controlled close to prevent slamming and reduce wear.
- **Anti-Tamper Design:** Pre-set, pre-tensioned closing speed prevents unauthorized adjustment or tampering after installation.
- **Versatile Hinge Compatibility:** Dual bracket design accommodates both in-line and offset hinge configurations.
- **Robust Construction:** Durable steel build with a protective PVC coating for reliable outdoor use.
- **Security Integration:** Compatible with most forms of security, access control, or hold-open devices.
- **Reversible Fitting:** Suitable for mounting on the opening side of either left or right-handed gates.
- **Easy Installation:** Supplied with instructions and a clamp bracket to assist with fitting.

Brand Profile

Lockey

Lockey (often sold as **Lockey Digital / LockeyUSA™**) is a keyless-entry lock brand best known for **fully mechanical push-button combination locks for doors and gates**—the classic “no keys, no batteries, no wiring” approach that’s popular for shared access, staff entrances, rental properties, and perimeter gates.

The brand story gets told slightly differently depending on region, but the consistent thread is this: **Lockey was one of the earliest “mechanical digital” (push-button) keyless lock systems**, with many trade listings calling it first introduced in **1970** and popularised with the rallying cry **“Change the code, not the lock!”**

What Lockey is known for (in the real world)

- **Mechanical keyless locks** (spring latch and deadbolt-style), designed to be **code changeable** without needing power.
- **Gate/perimeter hardware** in the same ecosystem (LockeyUSA’s range is often presented alongside gate hardware like hydraulic closers and panic hardware).

UK vs North America branding / distribution

- In the UK, **Lockey Digital** is distributed by **Total Product Sales Ltd**, which says it was established in **1982** and founded by **John Fenton**, and that the Lockey Digital locks are **invented and manufactured in Japan** and distributed in the UK/worldwide since 1982.
- In North America, **LockeyUSA™** describes itself as the Lockey brand’s North American business; one LockeyUSA page notes that **Doug Hill obtained exclusive North American import rights and founded LockeyUSA in 2001**.
- LockeyUSA was later acquired: **Nationwide Industries acquired LockeyUSA** (announcement dated **25 Feb 2021**), folding the brand into a broader gate-hardware portfolio.
