Specification Summary

Brand Master Lock

Product type Door Bar

Product Description

The Master Lock 265D Door Security Bar is a highly effective, dual-function security brace designed to prevent forced entry through hinged doors and sliding patio doors. Constructed from heavy-duty 20-gauge steel, this robust security bar provides an extra layer of physical protection for homes, flats, and offices.

Its versatile design allows it to be used in two ways. For standard hinged doors, it props vertically under the door handle, utilizing a pivoting ball joint at the base to ensure full, secure contact with the floor. For sliding patio doors, the top yoke can be easily removed, allowing the bar to be placed horizontally in the door track to block movement.

The bar is fully adjustable between 70cm and 112cm (27.5" to 42") to fit most standard doorways and patio frames. To protect your property, it features a padded rubber foot that provides a non-slip grip on carpets, wood, or tiled floors without leaving scratches or marks. Lightweight and portable, it is also ideal for taking on travels to secure hotel rooms or holiday rentals.

Technical Specifications

- **Brand:** Master Lock
- **Manufacturer Reference:** 265D
- **Material:** 20-gauge steel

- **Finish:** White
- **Adjustable Length:** 70cm to 112cm (27.5" to 42")
- **Width:** 72mm
- **Depth:** 56mm
- **Weight:** 450g
- **Pack Quantity:** 1

Key Features

- **Dual-Function Design:** Can be used vertically for standard hinged doors or horizontally for sliding patio doors.
- **Adjustable Length:** Easily adjusts between 70cm and 112cm to fit most standard doors and patio frames.
- **Heavy-Duty Construction:** Made from rugged 20-gauge steel to resist forced entry.
- **Pivoting Ball Joint:** Assures full contact with the floor for maximum stability.
- **Padded Foot:** Provides a secure, non-slip grip while protecting floors and walls from scratches.
- **Portable & Lightweight:** Easy to move around the home or pack for travel security.
- **Removable Top Yoke:** Allows quick conversion for sliding door applications.

Brand Profile

Master Lock

The logo for Master Lock, featuring the word "Master" in a large, bold, italicized sans-serif font, with "Lock" in a smaller, bold, italicized sans-serif font below it. A registered trademark symbol (®) is located at the end of "Lock".

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations’** security portfolio (the same broader group that also houses other security brands).
