Specification Summary

Brand	Master Lock
Product type	Laminated

Product Description

The Master Lock 6125 Pro Series Weather Tough® laminated padlock is engineered to withstand the most demanding security challenges and harshest outdoor environments. Featuring a heavy-duty 60mm wide laminated steel body, this padlock offers exceptional physical strength against forced entry. It is wrapped in an exclusive weather-resistant cover that shields the internal mechanism from water, ice, dirt, and grime, making it ideal for securing commercial gates, industrial storefronts, trailers, vans, and truck doors.

For maximum cut resistance, the padlock is equipped with a 9mm diameter hardened boron alloy shackle. Security is further enhanced by a dual ball-bearing locking mechanism that resists pulling and prying attacks. At its core, a high-security, rekeyable 5-pin cylinder with spool pins provides superior protection against lockpicking. This robust combination of weatherproofing and physical defense makes the Master Lock 6125 a dependable choice for high-risk commercial and industrial applications.

Technical Specifications

- **Body Width:** 60mm
- **Shackle Diameter:** 9mm
- **Vertical Clearance:** 35mm
- **Horizontal Clearance:** 23mm
- **Body Material:** Laminated steel
- **Shackle Material:** Hardened boron alloy
- **Locking Mechanism:** 5-pin cylinder (rekeyable)
- **Keying:** Keyed to differ
- **Finish:** Black
- **Weight:** 544g

Key Features

- **Weather Tough® Protection:** Covered laminated steel body protects the lock from water, ice, dirt, and harsh outdoor conditions.
- **High Cut Resistance:** Hardened boron alloy shackle offers superior resistance against cutting and sawing.
- **Pry Resistant:** Dual ball-bearing locking mechanism provides maximum protection against pulling and prying attacks.
- **Pick Resistant Cylinder:** Rekeyable 5-pin cylinder with spool pins resists lockpicking and can be serviced or repinned.
- **Heavy-Duty Construction:** Designed specifically for tough commercial and industrial security applications.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations’** security portfolio (the same broader group that also houses other security brands).
