Specification Summary

Brand Master Lock

Product type Laminated

Product Description

The Master Lock Excell Open Shackle Padlock is designed to offer high-security protection for residential, commercial, and industrial applications. Built with a heavy-duty laminated steel core for maximum strength, it features a Dual-Armor™ protective outer sleeve made of stainless steel and zinc to deliver exceptional weather resistance.

A key highlight of the Excell range is its octagonal boron-carbide shackle, which is 50% harder than standard hardened steel, providing superior resistance against cutting and sawing. Additionally, the padlock is equipped with dual locking ball bearings for maximum resistance against prying and hammering, alongside a pick-resistant cylinder to prevent unauthorized entry.

This padlock is available in a range of sizes, shackle diameters, and clearances to suit your security requirements. Please select your preferred body width, shackle diameter, and clearance options from the selection below.

Technical Specifications

- **Body Width:** 45mm, 52mm, or 64mm (please choose from the options below)
- **Shackle Diameter:** 8mm, 9mm, or 11mm (please choose from the options below)
- **Horizontal Clearance:** 20mm, 24mm, or 36mm (please choose from the options below)
- **Vertical Clearance:** 38mm or 51mm (please choose from the options below)
- **Weight:** 320g, 431g, or 640g (please choose from the options below)
- **Material:** Steel body with stainless steel and zinc outer components
- **Shackle Finish:** Boron Carbide
- **Keying:** Keyed to differ
- **Keys Supplied:** 4
- **Finish:** Silver
- **Manufacturer Reference:** M1EURDLF, M5EURDLH, or M15EURDLF (please choose from the options below)

Key Features

- **Dual-Armor™ Protection:** Laminated steel core surrounded by stainless steel and zinc outer components for maximum strength and weather resistance
- **Tough-Cut™ Shackle:** Octagonal boron-carbide shackle is 50% harder than hardened steel, offering maximum resistance to cutting and sawing
- **Pry Resistance:** Dual locking ball bearings provide maximum resistance against prying and hammering
- **Pick Resistance:** Precision pin cylinder prevents lock picking
- **Multiple Sizes Available:** Choose from a range of body widths and shackle clearances to suit your application

Brand Profile

Master Lock

The logo for Master Lock, featuring the word "Master" in a large, bold, italicized sans-serif font, with "Lock" in a smaller, bold, italicized sans-serif font below it. A registered trademark symbol (®) is located at the end of "Lock".

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations’** security portfolio (the same broader group that also houses other security brands).
