Specification Summary

Brand	Multlock
Product type	Key & Turn Oval

Product Description

The Mul-T-Lock Integrator UK Oval Dual Turn Cylinder offers a high-security key-and-turn (thumbturn) locking solution designed specifically for UK oval profile lock cases. Combining robust physical protection with advanced key control, this cylinder is an ideal choice for both residential and commercial properties.

At the heart of the cylinder is Mul-T-Lock's patented Integrator mechanical platform, which utilizes a high-precision 7-pin tumbler mechanism. Key duplication is strictly controlled; keys can only be cut upon presentation of the unique security code card supplied with the lock. This prevents unauthorised key copying, providing peace of mind for landlords, business owners, and homeowners alike.

These cylinders are highly versatile and can be keyed alike to operate with the same key, or integrated into a complex master key system alongside other Integrator locks, including euro cylinders, rim cylinders, and padlocks.

Available in a choice of finishes and sizes to suit your door's requirements, please select your preferred options from the list below.

Technical Specifications

- **Profile:** UK Oval
- **Type:** Dual Turn (Key and Thumbturn)
- **Mechanism:** High-precision 7-pin tumbler
- **Platform:** Patented Mul-T-Lock Integrator
- **Key Control:** Restricted key duplication via security card
- **Standard Keys Supplied:** 2 keys per cylinder (or per keyed-alike set)
- **Finishes:** Available in Brass and Satin Nickel / Satin Steel

Key Features

- **Patented Key Protection:** Prevents unauthorised key duplication, ensuring complete control over who has access to your property.
- **Convenient Thumbturn Operation:** Allows quick and easy locking or unlocking from the inside without needing a key.

- **Flexible Keying Options:** Can be keyed alike or integrated into a master key suite with other Mul-T-Lock Integrator locks.
- **High-Precision Security:** Built with a reliable 7-pin mechanism to deter picking and tampering.
- **Durable Construction:** Manufactured from high-quality materials to ensure long-lasting performance and reliability.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders, patented key systems, and mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
