Product Description

The Mul-T-Lock Interactive+ Drawer Lock is a high-security locking solution designed to protect drawers, cupboards, and small cabinets in both residential and commercial environments. Utilising Mul-T-Lock's patented Interactive+ (MTL600) cylinder platform, this lock offers outstanding resistance against picking, drilling, and bumping.

This high-quality cabinet lock is available in two distinct configurations to suit your operational needs. The **Drawer Deadbolt** operates via a 90° key rotation with a lazy mechanism, while the **Drawer Latch** features a 45° key rotation and a spring-loaded slam-locking mechanism that automatically locks when the drawer is pushed shut. Both options are finished in a stylish nickel plating. Please select your preferred lock style from the options below.

Technical Specifications

- **Brand:** Mul-T-Lock
- **Cylinder Platform:** Interactive+ (MTL600)
- **Finish:** Nickel
- **Lock Types Available:** Drawer Deadbolt or Drawer Latch (please select below)
- **Deadbolt Operation:** 90° key rotation with lazy mechanism
- **Latch Operation:** 45° key rotation with slam-locking mechanism
- **Cylinder Mechanism:** High-precision telescopic pin tumbler system
- **Materials:** Brass body and plug, steel lock case, nickel silver and stainless steel pins

Key Features

- **High Security:** Patented Interactive+ key platform provides advanced protection against picking, drilling, and bumping.
- **Versatile Configurations:** Choose between a standard deadbolt or a convenient spring-loaded slam-latch to suit your requirements.
- **Durable Construction:** Built with a robust brass body and steel lock case for long-lasting reliability.
- **Flexible Keying:** Can be keyed different, keyed alike, or integrated into master key systems.
- **Sleek Finish:** Clean nickel plating complements modern office and home furniture.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders, patented key systems, and mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
