Is Cylinder

Product Description

The Mul-T-Lock Break-Secure 3XP Pro 3-Star Euro Thumb Turn Cylinder offers top-tier security and ultimate convenience for your home. Engineered to defend against the most common forced entry methods, this high-security cylinder is TS007 3-Star accredited, Sold Secure SS312 Diamond certified, and Secured by Design approved.

At the heart of its design is an advanced anti-snap sacrificial section. In the event of an attempted break-in, the front of the cylinder snaps off cleanly, leaving the internal mechanism intact and the door securely locked. It also features robust grip-resistant technology to prevent wrenching, alongside integrated anti-drill, anti-bump, and anti-pick protections.

With a thumb turn on the inside, this cylinder allows for quick and easy locking and keyless egress in an emergency. It uses a patented keyway to prevent unauthorised key duplication, meaning extra keys can only be cut upon presentation of the included security card.

This cylinder is available in a wide variety of overall sizes to suit different door thicknesses. Please measure your door carefully and select your required size from the options below.

Technical Specifications

- **Certification:** TS007 3-Star accredited, Sold Secure SS312 Diamond, Secured by Design (Police Preferred Specification)
- **Standard:** Tested to BS EN 1303:2015
- **Security Protection:** Anti-snap, grip-resistant, anti-drill, anti-bump, and anti-pick
- **Key Control:** Patented keyway with security card protection to prevent unauthorised duplication
- **Key Type:** Reversible flat dimple keys
- **Operation:** Key entry from the outside, thumb turn on the inside
- **Sizes:** Multiple overall sizes available (please choose from the options below)

Key Features

- **Maximum Snap Protection:** Sacrificial front section snaps off under attack, keeping the inner lock secure and functional.
- **Convenient Thumb Turn:** Allows quick, keyless locking and emergency egress from the inside.
- **Police Approved:** Secured by Design certified, meeting strict UK police security standards.
- **Patented Key Security:** Restricts unauthorised key copying; keys can only be duplicated with the official security card.
- **All-Round Attack Resistance:** High-strength materials defend against drilling, picking, bumping, and wrenching.
- **Flexible Sizing:** Available in a wide range of internal and external measurements to fit most PVCu, composite, and timber doors.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders, patented key systems, and mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
