Specification Summary

Brand	Squire
Product type	Padbolt

Product Description

The Squire Combi 4 Chrome Die Cast Combination Bolt offers a highly secure, keyless locking solution for both indoor and outdoor applications. Ideal for sheds, gates, cupboards, and vehicles, this robust bolt eliminates the hassle of carrying or losing keys.

Engineered with a durable die-cast body and a polished chrome finish, it is designed to withstand harsh weather conditions and resist corrosion. The 4-wheel combination mechanism provides up to 10,000 resettable code options, allowing you to easily change your code whenever required. For enhanced security, the bolt can be locked in both the open and closed positions and is supplied with one-way security screws to prevent unauthorised removal. With its universal handing, it can be fitted left- or right-handed, and is suitable for surface, flush, or recessed mounting.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited**.

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
