Specification Summary

Brand	Squire
Product type	Open Shackle

Product Description

The Squire Lion premium range of solid brass padlocks offers robust security and exceptional weather resistance. Featuring a thicker body section than the standard Leopard range, these padlocks provide enhanced physical strength. Each padlock is equipped with a highly durable stainless steel shackle and a double locking mechanism, making them completely rustproof and ideal for harsh, wet, or coastal environments.

Designed for both internal and external use, the Squire Lion range is backed by a 10-year manufacturer's guarantee, giving you long-term peace of mind. The padlocks utilize a reliable 5-pin tumbler mechanism to resist picking and tampering.

These padlocks are available in multiple sizes to suit your specific security needs. Please choose your preferred body width, shackle diameter, and clearance options from the selection below.

Technical Specifications

- **Brand:** Squire
- **Material:** Solid Brass body with Stainless Steel shackle
- **Mechanism:** 5 Pin tumbler
- **Keys Supplied:** 2
- **Body Width:** 31.5mm to 51mm (please choose from the options below)

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited**.

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
