Specification Summary

Brand	Squire
Product type	Open Shackle

Product Description

The Squire Lion range of open shackle padlocks offers a premium level of security for both indoor and outdoor applications. Featuring a solid brass lock body and a hardened steel shackle, these padlocks are designed to deliver robust protection against tampering and harsh weather.

Constructed with a thicker body section than the Squire Leopard range, the Lion series provides a larger shackle diameter and a greater number of key differs for enhanced security. These versatile padlocks are ideal for securing lockers, luggage, toolboxes, sheds, garages, gates, greenhouses, and boats.

These padlocks are available in multiple body widths, shackle diameters, and pin mechanisms. Please choose from the options below to find the perfect fit for your security requirements.

Technical Specifications

- **Brand:** Squire
- **Material:** Solid brass body with hardened steel shackle
- **Body Width:** Ranges from 24.5mm to 60mm (please choose from the options below)
- **Body Depth / Thickness:** Ranges from 11mm to 18.5mm (please choose from the options below)
- **Shackle Diameter:** Ranges from 4mm to 9.5mm (please choose from the options below)
- **Horizontal Clearance:** Ranges from 13.5mm to 35.5mm (please choose from the options below)
- **Vertical Clearance:** Ranges from 16.7mm to 33.5mm (please choose from the options below)
- **Mechanism:** 4-pin or 5-pin tumbler mechanism (please choose from the options below)
- **Keying:** Keyed to differ (supplied with 2 keys)
- **Pack Quantity:** Available as single units or pairs (please choose from the options below)
- **Manufacturer Reference:** LN2, LN3, LN4, LN4T, LN5, or LN60 (please choose from the options below)

Key Features

- **Premium Solid Brass Body:** High corrosion resistance for reliable indoor and outdoor use.
- **Hardened Steel Shackle:** Delivers robust protection against cutting and sawing.
- **Double Locking:** Double-locking mechanism featured on models 30mm and above for added security.
- **Heavy-Duty Design:** Thicker body and larger shackle diameter than the Leopard range.
- **Multi-Purpose Security:** Perfect for gates, garages, sheds, lockers, toolboxes, and boats.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK’s oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire’s own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country’s lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: “we’ve been thinking about forced entry since muskets were a performance upgrade.”

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited**.

What Squire is known for

Squire’s modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own “About” page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world’s strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
