Brand	Squire
Product type	Hasp & Staple

Product Description

The Squire STH3 Stronghold® High Security Hasp & Staple is a heavy-duty security solution designed to protect domestic, commercial, and industrial outbuildings. Constructed from robust hardened steel, this extra-high-security hasp and staple offers exceptional resistance against physical attacks. It features a hardened steel staple and a fully concealed nut-and-bolt fixing mechanism, ensuring that opportunist thieves cannot easily tamper with or remove the fittings.

With its durable anti-corrosion finish, the STH3 is built to withstand harsh outdoor environments, making it ideal for securing sheds, garages, and external storage facilities. It is specifically designed to meet Secured by Design (SBD) requirements for homes, helping you comply with modern building regulations for outbuilding security.

This hasp and staple is CEN Grade 4 rated and carries Sold Secure Silver approval, demonstrating its high-level resistance to forced entry. It is designed to accommodate high-security padlocks with a shackle diameter of up to 13mm, making it the perfect partner for Squire's Stronghold padlock range.

Technical Specifications

- **Brand:** Squire
- **Manufacturer Reference:** STH3
- **Length:** 23.1cm
- **Weight:** 1.84kg
- **Finish:** Blue
- **Handing:** Reversible
- **Maximum Shackle Diameter:** 13mm
- **Standards & Certifications:** CEN Grade 4, BS EN 12320:2012, Secured by Design, Sold Secure Silver

Key Features

- **Hardened Steel Construction:** Heavy-duty build with an anti-corrosion finish for maximum weather resistance and durability
- **Concealed Fixings:** Nut and bolt fixing is fully concealed to prevent tampering and defeat attack attempts
- **Certified Security:** CEN Grade 4 rated and Sold Secure Silver approved for proven, high-level protection
- **Police Approved:** Secured by Design specification, ideal for meeting modern home security standards for outbuildings
- **Hardened Staple:** Specially hardened steel staple provides superior resistance against cutting and cropping
- **Reversible Design:** Allows for flexible installation on both left and right-handed doors
- **High Compatibility:** Designed to accept heavy-duty padlocks with a shackle diameter of up to 13mm

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited**.

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
