Brand	Squire
Product type	Laminated

Product Description

The Squire Stronglock 30 Series Laminated Closed Shackle Padlock is a rugged, medium-to-high security padlock designed to offer robust protection for domestic and light commercial applications. Featuring a heavy-duty laminated steel body with a protective blue finish, it is highly resistant to physical attacks and harsh weather conditions. The closed shackle design incorporates a hardened steel shackle that is shielded to prevent access by bolt cutters and saws, providing an extra layer of security.

Equipped with a double deadlocking and ball-locking mechanism, this padlock provides excellent resistance against pulling and twisting attacks. The 4-pin tumbler cylinder offers over 1,000 key variations, ensuring reliable key security. It is ideal for securing sheds, garages, lockups, gates, toolboxes, lockers, and vans.

This padlock is available in multiple sizes and configurations, with body widths ranging from 44mm to 50mm, shackle diameters of 8mm or 9mm, and body thicknesses of 24mm or 29mm. Please select your required size, clearance, and weight options from the selection below.

Technical Specifications

- **Body Width:** 44mm or 50mm (please choose from the options below)
- **Body Thickness:** 24mm or 29mm (please choose from the options below)
- **Shackle Diameter:** 8mm or 9mm (please choose from the options below)
- **Vertical Clearance:** 13mm or 19mm (please choose from the options below)
- **Horizontal Clearance:** 16mm or 20mm (please choose from the options below)
- **Weight:** 350g or 580g (please choose from the options below)
- **Body Material:** Laminated steel
- **Body Finish:** Blue
- **Mechanism:** 4-pin tumbler (over 1,000 key variations)
- **Keying:** Keyed to differ (supplied with 2 keys)
- **Manufacturer Reference:** 37CS or 39CS (please choose from the options below)

Key Features

- **Closed Shackle Design:** Hardened steel shackle is shielded by the body to protect against bolt cutters, sawing, and cropping attacks.
- **Laminated Steel Body:** Rugged, multi-layered steel construction provides excellent resistance to physical force.
- **Double Locking Mechanism:** Features double deadlocking and ball-locking for superior pull resistance.
- **Weather Resistant:** Corrosion-resistant finish makes it ideal for both indoor and outdoor applications.
- **Versatile Security:** Perfect for securing sheds, garages, gates, toolboxes, lockers, and commercial storage areas.
- **Multiple Options Available:** Choose from different sizes, clearances, and weights to suit your specific security needs.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK’s oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire’s own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country’s lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: “we’ve been thinking about forced entry since muskets were a performance upgrade.”

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited**.

What Squire is known for

Squire’s modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own “About” page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world’s strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
