## Product Description

The Squire Stronglock Hardened Steel Chain range offers high-security protection for your valuables while remaining light and easy to carry. Manufactured from hardened steel with a robust square-link design, these chains provide excellent resistance against cutting and aggressive attacks, including bolt cutters. They are an ideal choice for securing storage areas, gates, vehicles, motorcycles, and site or plant equipment.

Each chain is encased in a durable, stylish grey protective sleeve. This sleeve not only shields the chain from weather elements but also acts as an anti-scratch barrier to protect your property from damage.

These chains are available in a range of lengths, link diameters, and weights to suit your specific security requirements. Please choose your preferred chain length, link diameter, and manufacturer reference from the options below to find the perfect fit for your needs. Please note that padlocks are sold separately.

## Technical Specifications

- **Brand:** Squire
- **Material:** Hardened steel (square link)
- **Finish:** Grey protective sleeve
- **Chain Length:** 0.915m, 1.2m, or 1.8m (please choose from the options below)
- **Link Diameter:** 8mm, 9.5mm, or 10mm (please choose from the options below)
- **Weight:** 1.2kg to 3.4kg (please choose from the options below)
- **Manufacturer Reference:** X3, X4, Y3, Y4, or Y6 (please choose from the options below)
- **Barcode:** Multiple options available (please choose from the options below)
- **Pack Quantity:** 1

## Key Features

- **Hardened Steel Construction:** Robust square-link design provides strong resistance against cutting and bolt-cutter attacks
- **Lightweight Security:** Lighter to carry than heavy-duty alternative ranges, offering an excellent balance of security and portability
- **Protective Sleeve:** Durable grey sleeve prevents scratches on your property and shields the chain from the elements
- **Versatile Use:** Ideal for securing gates, storage areas, vehicles, motorcycles, and site or plant equipment
- **Multiple Options Available:** Available in various lengths, link diameters, and weights to suit your specific needs (please choose from the options below)
- **Padlock Sold Separately:** Allows you to pair the chain with your choice of high-security padlock

## Brand Profile

Squire

**Squire** (formally **Henry Squire & Sons Ltd**) is one of the UK’s oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire’s own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country’s lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: “we’ve been thinking about forced entry since muskets were a performance upgrade.”

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited**.

### What Squire is known for

Squire’s modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own “About” page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world’s strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
