Brand Squire

Product type Combination

Product Description

The SQUIRE Vulcan Long Boron Shackle Combination Padlock is a premium, high-security locking solution designed by Henry Squire & Sons Ltd to provide exceptional resistance against attack. It is ideal for securing sheds, toolboxes, gates, and other outdoor or indoor applications.

Constructed with a robust steel body and a long, hardened boron alloy steel shackle, this padlock offers superior durability and corrosion resistance. The double-locking mechanism operates without the need for keys, using a fully recodable combination system. Depending on the model selected, it features either a 4-wheel mechanism (providing 10,000 possible combinations) or a 5-wheel mechanism (providing 100,000 combinations). The padlock is wrapped in a soft-feel cover for comfortable handling and added protection against the elements.

This padlock is available in multiple body widths, shackle diameters, and finishes. Please choose your preferred size, combination mechanism, and finish from the options below to suit your specific security needs.

Technical Specifications

- **Brand:** Squire
- **Manufacturer Reference:** VULCAN COMBI 40/2.5, 50/2.5, or 60/2.5 (please choose from the options below)
- **Body Width:** 40mm, 50mm, or 60mm (please choose from the options below)
- **Body Depth:** 22mm, 26mm, or 33mm (please choose from the options below)
- **Shackle Diameter:** 6mm, 8mm, or 10mm (please choose from the options below)
- **Vertical Clearance:** 63mm
- **Horizontal Clearance:** 17mm, 22.6mm, or 28mm (please choose from the options below)
- **Combination Mechanism:** 4 Wheel (10,000 combinations) or 5 Wheel (100,000 combinations) (please choose from the options below)
- **Finish:** Blue & Silver or Satin Silver (please choose from the options below)
- **Material:** Steel body with hardened boron alloy steel shackle
- **Weather Resistant:** Yes
- **Weight:** 137g, 297g, or 543g (please choose from the options below)
- **Pack Quantity:** 1

Key Features

- **High Attack Resistance:** Features a robust steel body and a hardened boron alloy steel shackle for excellent protection.
- **Keyless Convenience:** Operated by a fully recodable combination lock, eliminating the need for keys.
- **Long Shackle Design:** Offers a generous 63mm vertical clearance, making it versatile for securing larger or awkwardly positioned objects.
- **Soft-Feel Cover:** Features an attractive, comfortable-to-hold protective cover marked with the Squire logo.
- **Weatherproof Performance:** Designed to withstand outdoor conditions with excellent corrosion resistance.
- **10-Year Guarantee:** Backed by Squire's standard 10-year manufacturer's guarantee for long-term peace of mind.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK’s oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire’s own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country’s lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: “we’ve been thinking about forced entry since muskets were a performance upgrade.”

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited**.

What Squire is known for

Squire’s modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own “About” page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world’s strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
