Specification Summary

Brand	Supra
Product type	Key Safe

Product Description

The Supra 409 Key Safe Cover is a high-quality, weather-resistant replacement cover designed specifically for use with the standard Supra L9400 key safe. If your original cover has become lost, worn, or damaged, this replacement ensures your outdoor key safe remains fully protected from the elements.

Constructed to provide reliable waterproofing, this cover shields the key safe's push-button mechanism and locking components from rain, wind, dirt, and frost. By preventing water ingress and debris build-up, it helps maintain the smooth operation and longevity of your key safe, ensuring you can always access your spare keys when needed.

This lightweight, durable cover is finished in black and is incredibly easy to fit, offering quick and effective weather protection for your external key storage.

Technical Specifications

- **Manufacturer Reference:** 409
- **Part Number:** L11535
- **Finish:** Black
- **Weight:** 80g
- **Pack Quantity:** 1

- **Packaging:** Loose
- **Compatibility:** Suitable for use with the standard Supra L9400 key safe

Key Features

- **Weatherproof Protection:** Keeps the key safe dry and shielded from harsh weather conditions.
- **Protects Mechanism:** Helps prevent water ingress, dirt, and frost from affecting the push-button lock.
- **Perfect Fit:** Specifically designed as a direct replacement cover for the Supra L9400 model.
- **Durable Construction:** Lightweight yet robust design built to withstand outdoor environments.

Brand Profile

Supra

The image shows the SupraUK logo in a blue, sans-serif font. The word 'Supra' is in a larger font size than 'UK', and a registered trademark symbol (®) is positioned to the upper right of the 'K'.

Supra is a well-known **key safe / key management** brand in the UK trade, most associated with the **C500 / C500 Pro** style **push-button mechanical key safes** used for managed access (care providers, trades, landlords, holiday lets, facilities teams) where you need controlled entry without leaving a spare key under the world's most obvious plant pot.

In the UK, Supra is closely tied to **Supra (UK) Ltd**, which trades as **The Key Safe Company** (their distribution arm, active since **1996**) and positions itself as a leading UK access-management specialist bringing brands like **Supra™** and **KeySafe™** to market.

What Supra is known for

- **High-security mechanical key safes** (not “smart”, not app-based — just robust, outdoor-rated, code access).
- Flagship units like the **Supra C500 Pro** are widely marketed as “**police preferred**” and sold as high-attack-resistance models with installer-friendly features (capacity for multiple keys, weather covers, clutch/anti-force mechanisms depending on model/retailer).
- Some listings explicitly reference **LPCB LPS 1175 Issue 8 A5** attack testing for the C500 Pro line (that’s “this has been tested by people whose hobby is breaking things”).

Important “don’t-mix-the-brands” note

There’s also **Supra Systems** in the US market — the electronic lockbox / credential ecosystem used heavily in real estate — which sits under **Honeywell** after Honeywell completed the acquisition of **Carrier’s Global Access Solutions** business (which included Supra). Same name, different universe: one is property access lockboxes for agents; the other is the familiar UK wall-mounted key safe world.
