Brand Profile

Union

ASSA ABLOY

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
