Specification Summary

Brand	Union
Product type	Cut

Product Description

The UNION 4138 Cylinder Springbolt Cupboard and Till Lock is a versatile and reliable security solution designed specifically for wooden doors, drawers, and tills. Ideal for both commercial and domestic applications, this high-quality lock offers convenient automatic locking. Upon closing, the springbolt automatically engages to secure the cabinet or drawer, and is easily withdrawn using the key.

One of the standout features of the UNION 4138 is its rotatable cylinder. This clever design allows the lock to be configured as a till (drawer) lock, or a left-hand or right-hand cupboard lock, providing excellent flexibility during installation. It is suitable for wooden doors or tills with a maximum material thickness of 23mm, and comes complete with a cylinder rose, strike plate, and fixing screws for a straightforward installation.

Technical Specifications

- **Brand:** Union
- **Manufacturer Reference:** 4138
- **Mechanism:** 4-pin cylinder
- **Case Width:** 52.5mm
- **Case Height:** 33.5mm

Brand Profile

Union

ASSA ABLOY

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
