**Brand** Union

**Product type** Straight

**Product Description**

The UNION 4148 Cylinder Springbolt Cupboard / Till Lock is a highly versatile security solution designed specifically for wooden doors, cupboards, and tills. Featuring a clever rotatable cylinder, this lock can be easily configured to function as a till lock, or as a left-hand or right-hand cupboard lock, making it incredibly adaptable for various installations.

This springbolt lock automatically engages when the cupboard door or drawer is closed, providing convenient, self-locking security. The bolt is then easily withdrawn using one of the two supplied keys. It is designed to suit wooden materials with a maximum thickness of 12.5mm and comes complete with a cylinder rose, strike plate, and all necessary fixing screws for a straightforward installation.

This lock is available in different keying options (including Keyed Alike and Keyed To Differ), weights, and barcodes. Please select your preferred options from the choices below to find the perfect fit for your security needs.

## Technical Specifications

## Brand Profile

Union

ASSA ABLOY

**UNION** is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

### What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
