Product Description

The UNION 8710 Aluminium Hat & Coat Hook is a durable and practical ironmongery accessory designed for both residential and commercial environments. Manufactured by Union, a trusted brand in architectural hardware, this hook features a classic dual-hook design to maximise storage space. The upper hook has a projection of 66.5mm, ideal for hats or larger garments, while the lower hook projects 36mm, making it perfect for coats, jackets, or bags.

Crafted from high-quality aluminium with an anodised silver finish, this hook offers excellent corrosion resistance and a clean, modern aesthetic that complements any interior decor. It is a robust, space-saving solution for hallways, cloakrooms, offices, and changing rooms.

Brand Profile

Union

ASSA ABLOY

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
