Specification Summary

Brand	Union C-Series
Product type	5 Lever BS04

Product Description

The UNION C-Series 3K74E (formerly known as Chubb) is a premium, British Standard 5-lever mortice sashlock designed to offer exceptional security for external timber doors. Manufactured in the UK, this high-security lock is fully certified to BS EN 3621 and approved by Secured by Design, making it a trusted choice for both residential and commercial properties.

A key benefit of the 3K74E is its unique roller latchbolt, which provides incredibly smooth operation and allows the lock to be fitted to either left or right-hand hung doors without any manual modification. For robust physical protection, the lock features a 20mm deadbolt equipped with advanced anti-drill, anti-pick, and anti-saw features. It is also EN1634-1 fire-rated for use on 60-minute timber fire doors and comes backed by a 25-year manufacturer's guarantee.

This sashlock is available in a variety of configurations to suit your installation needs. Please choose from the options below to select your preferred backset (40mm or 53mm, with corresponding 67mm or 80mm case depths), finish (Polished Brass or Satin Chrome), keying option (Keyed Alike or Keyed To Differ), and packaging type (Boxed or Visi).

Technical Specifications

- **Brand:** Union C-Series (formerly Chubb)
