Specification Summary

Brand	Union
Product type	Overhead

Product Description

The UNION CE24V is a stylish, robust, and highly adjustable overhead rack and pinion door closer, ideal for both retrofitting and new installations. Certifire approved and CE Marked to BS EN 1154 in all three mounting positions (regular, transom, and parallel arm), it is assessed for FD30, FD60, and FD120 timber fire doors with intumescent protection.

With variable closing power (sizes 2 to 4), this door closer is suitable for internal timber doors up to 1100mm wide and weighing up to 80kg. It features an adjustable closing speed, latching action, and backcheck to prevent forceful opening. The unit is fully reversible and comes complete with all required fixings.

Please note that this door closer is available in multiple manufacturer references, weights, and barcodes. Please select your preferred options from the choices below.

Technical Specifications

- **Brand:** Union
- **Mechanism:** Rack and pinion
- **Strength Size:** EN 2 to 4 (variable)
- **Max Door Width:** 1100mm
- **Max Door Weight:** 80kg
- **Body Width:** 233mm
- **Body Depth:** 60.5mm
- **Material:** Aluminium
- **Handing:** Reversible
- **Fire Rating:** Assessed for FD30, FD60, and FD120 timber fire doors (up to 2 hours)

Brand Profile

Union

ASSA ABLOY

UNION is one of the big heritage names in **British-designed locks and door hardware**, with roots going back to **1840** in **Willenhall** (aka the Black Country's lockmaking mothership). What started as a family business grew into a widely specified brand for everything that "goes on a door," and UNION still leans hard into that *made-for-the-trade, won't-let-you-down* identity.

Today, UNION sits inside **ASSA ABLOY Opening Solutions UK & Ireland**, and the brand acts like a hub for a wider family of door-hardware ranges. In recent years, brands like **Exidor** (panic/exit hardware), plus **Dale Hardware** and **Excel Architectural Hardware**, were brought into the broader "UNION family" after ASSA ABLOY acquisitions. It's basically the Avengers, but instead of saving the universe they just make sure fire exits actually work at 3am.

What UNION is known for:

- A huge spread of **locks and cylinders** (mortice locks, euro cylinders, padlocks, etc.)
- The broader architectural hardware ecosystem: **door controls, exit hardware, hinges, handles, accessories**, and spec/support tooling aimed at installers and ironmongers
- A strong UK trade presence and long distributor relationships (Aldridge even called out a **60-year partnership** publicly).
