Specification Summary

Brand Willenhall Locks

Product type 5 Lever

Product Description

The Willenhall Locks M3 is a reliable 5-lever mortise sashlock designed specifically for timber doors with narrow stiles, such as glazed or French doors. Featuring a compact 50mm case depth and a 32mm backset, this lock fits neatly into slim door profiles without compromising on security.

It features a reversible latchbolt, allowing it to be easily configured for both left and right-handed doors. The deadbolt is operated by a key from either side, while the latchbolt is operated by a lever handle via an 8mm follower.

This sashlock is available in multiple options to suit your project. You can choose between Polished Brass and Satin Chrome finishes (with matching forend finishes) to complement your existing door hardware. Additionally, the lock is available in either Keyed to Differ or Keyed Alike options, with manufacturer references of AS M3 or M3, and weights ranging from 610g to 620g. Please select your preferred finish, keying type, manufacturer reference, weight, and barcode option from the choices below. Each lock is supplied complete with two keys.

Technical Specifications

- **Case Depth:** 50mm
- **Backset:** 32mm
- **Centres:** 57mm
- **Case Height:** 108mm
- **Forend Dimensions:** 152mm (Length) x 25mm (Width)

Brand Profile

Willenhall Locks

Willenhall Locks is a trade-familiar UK lock brand built around the classic **mortice lock** lineup: **5-lever deadlocks, sashlocks**, and a handful of **specialist cases** for awkward door types (plus some gate kit). The branding leans into Willenhall's identity as the historic heartland of British lockmaking, and retailers commonly describe the range as being supplied for **50+ years**.

What you typically see under the Willenhall name:

- **Mortice deadlocks & sashlocks** (often 5-lever) for domestic/commercial doors.
- **Narrow-stile / euro sashcases** for glazed and French doors (e.g. the **EP1 Euro Sashcase**, which is explicitly pitched as a narrow-stile solution).
- **Gate locks** using **hook bolt** formats (Aldridge lists models like **G10 / G14 / G17** as 5-lever gate locks).
- Some sellers also group in **slamlock**-type products under the Willenhall label (auto-locking on close—great for security, occasionally *too* great if you enjoy being locked out of your own life).
