Specification Summary

Brand	Yale
Product type	Open Shackle

Product Description

The Yale Y227B Protector Maximum Security Weatherproof Padlock is designed to provide robust security and exceptional weather resistance for outdoor applications. Featuring a solid steel lock body and a highly cut-resistant boron shackle, this padlock delivers reliable protection for high-value items such as sheds, gates, and shutter doors.

To withstand harsh outdoor environments, the padlock is equipped with a protective cover on the lock body and a dedicated keyhole cover. It has been rigorously tested for up to 120 hours of corrosion resistance and certified to EN 12320:2012, ensuring proven resistance against cutting, twisting, and pulling attacks. For added security, it features a double ball locking mechanism and is supplied with three keys.

This padlock is available in multiple sizes and specifications. Please choose your preferred body width, shackle diameter, and clearance options from the selection below.

Technical Specifications

- **Body Width:** 45mm or 55mm (please choose from the options below)
- **Body Height:** 47mm or 49mm (please choose from the options below)
- **Body Depth:** 28mm or 33mm (please choose from the options below)
- **Shackle Diameter:** 6mm or 10mm (please choose from the options below)
- **Horizontal Clearance:** 20mm or 22mm (please choose from the options below)
- **Vertical Clearance:** 25mm or 28mm (please choose from the options below)
- **Weight:** 265g or 425g (please choose from the options below)
- **Material:** Steel body with boron shackle
- **Keys Supplied:** 3 keys
- **Standards:** Tested to EN 12320:2012
- **Corrosion Resistance:** Tested up to 120 hours
- **Cycle Tested:** Tested to 10,000 cycles for opening and closing

Key Features

- **Maximum Security:** Solid steel body and boron shackle provide high resistance to cutting, twisting, and pulling.
- **Weatherproof Protection:** Protective body cover and keyhole cover shield the lock from harsh outdoor elements.
- **Double Ball Locking:** Offers enhanced security and resistance against pulling attacks.
- **Corrosion Resistant:** Tested up to 120 hours to ensure long-lasting performance in extreme weather.
- **Certified Quality:** Tested to EN 12320:2012 and cycle-tested to 10,000 operations for reliable durability.
- **Keys Included:** Supplied with 3 keys for convenience.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada, Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
