Specification Summary

Brand	Yale
Product type	Hasp & Staple

Product Description

The Yale High Security Steel Hasp & Staple is a robust and reliable security solution designed specifically for outdoor use. It is ideal for securing sheds, garages, gates, and other valuable outdoor assets. Manufactured from high-quality steel with a protective black coating, this hasp has been rigorously tested for up to 96 hours for corrosion resistance, ensuring excellent weather protection and long-lasting durability.

For enhanced security, the hasp features concealed fixings that prevent them from being easily tampered with or removed. It is supplied complete with fixings for a quick and straightforward installation. Designed to work seamlessly with Yale padlocks, this hasp is available in multiple widths, weights, and references to suit your specific security needs. Please select your preferred size and specification from the options below.

Technical Specifications

- **Brand:** Yale
- **Material:** Steel
- **Finish:** Black
- **Width:** 90mm or 12cm (please choose from the options below)
- **Weight:** 90g or 200g (please choose from the options below)
- **Manufacturer Reference:** Y105B/90/BK or Y135B/120/BK (please choose from the options below)
- **Barcode:** 5052847100165 or 5052847100172 (please choose from the options below)
- **Pack Quantity:** 1
- **Boxed Quantity:** 6
- **Compatibility:** Designed for use with Yale padlocks (such as Yale Brass Padlocks)

Key Features

- **Weather Resistant:** Tested up to 96 hours for corrosion resistance to ensure protection against harsh outdoor weather conditions.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada, Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
