Specification Summary

Brand	Yale
Product type	Cylinder - Euro

Product Description

The Yale L22080 Euro Profile Sashcase is a robust and reliable latch and deadbolt lockcase, specifically designed for installation in metal doors. With its slim 30mm backset and 48mm centres, this sashcase is an ideal choice for narrow-profile metal door frames in both commercial and residential settings.

This lockcase features a standard sashlock operation where the deadbolt is thrown and retracted by a euro profile cylinder (sold separately), and the latchbolt can be operated by either a lever handle or the cylinder key. For added security, it is fitted with an anti-thrust snib that automatically deadlocks the latchbolt when the door is closed, preventing physical tampering.

The latchbolt is fully reversible, making it suitable for both left and right-handed doors. Handing can be adjusted quickly by inserting a screwdriver into the rear of the case, pushing the latch forward, and rotating it. Please note that this unit is supplied without a faceplate.

Technical Specifications

- **Brand:** Yale
- **Manufacturer Reference:** L22080 (L8501)
- **Backset:** 30mm
- **Centres:** 48mm
- **Case Depth:** 50mm
- **Case Height:** 124mm
- **Case Width:** 50mm
- **Faceplate Width:** 25mm
- **Forend Length:** 223mm
- **Forend Width:** 25mm
- **Finish:** Satin Chrome
- **Mechanism:** Euro Cylinder
- **Spindle:** Single
- **Operation:** Deadbolt operated by cylinder; latchbolt operated by handle or cylinder

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that’s become so default it’s basically a synonym for “lock” in a lot of people’s heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada, Yale is an ASSA ABLOY brand**, and Yale’s own regional “About” pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY’s Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY’s acquisition of **August Home** (completed in **December 2017**), which fed into the broader “smart access” push around app-based entry and connected ecosystems.
