Specification Summary

Brand	Yale
Product type	Closed Shackle

Product Description

The Yale Maximum Security Hardened Steel Closed Shackle Padlock (Y300CB/63/127/1) offers heavy-duty protection for high-value outdoor assets, including boats, trailers, and gates. Engineered to meet rigorous security standards, this padlock achieves a CEN Grade 4 rating and is tested to EN 12320:2012. It provides exceptional resistance against physical attacks, including drilling, sawing, cutting, twisting, and pulling.

Constructed with a robust hardened steel body and a tough boron closed shackle, the padlock features a protective black finish designed to withstand harsh environments. It has been tested for up to 240 hours of corrosion resistance, making it ideal for marine and extreme outdoor applications. For enhanced security, the lock utilizes a 5-pin cylinder with a double ball locking mechanism. Additionally, it features key retention, ensuring the key cannot be removed while the padlock is in the unlocked position. It is supplied complete with three keys.

Technical Specifications

- **Brand:** Yale
- **Manufacturer Reference:** Y300CB/63/127/1
- **CEN Rating:** Grade 4
- **Standard:** Tested to EN 12320:2012
- **Body Width:** 63mm
- **Body Height:** 94mm
- **Body Depth:** 20mm
- **Shackle Diameter:** 11mm
- **Horizontal Clearance:** 21mm
- **Vertical Clearance:** 27mm
- **Weight:** 625g
- **Material:** Hardened steel body with boron shackle
- **Finish:** Black
- **Mechanism:** 5-pin cylinder
- **Keys Supplied:** 3 keys
- **Guarantee:** 10 Years

Key Features

- **Maximum Security:** CEN Grade 4 rating and tested to EN 12320:2012 standards for proven resistance against drilling, sawing, cutting, twisting, and pulling.
- **Closed Shackle Design:** Minimises shackle exposure to protect against cropping and cutting attacks.
- **Weather Resistant:** Tested up to 240 hours for corrosion resistance, making it ideal for outdoor and marine environments.
- **Double Ball Locking:** Features a double ball locking mechanism for added pull resistance and security.
- **Key Retaining:** Key remains held in the cylinder when unlocked, preventing the lock from being left open accidentally.
- **Durability Tested:** Cycle tested up to 10,000 opening and closing operations to ensure long-lasting, reliable performance.
- **Peace of Mind:** Backed by a 10-year manufacturer's guarantee.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada, Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
