Specification Summary

Brand	Yale
Product type	British Standard

Product Description

The Yale PBS3 and PBS4 Auto Deadlocking Nightlatches are British Standard high-security rim locks designed to offer maximum protection against forced entry while ensuring a quick and easy exit in an emergency.

Ideally suited for solid doors on emergency escape routes, such as flats or communal properties, the internal handle cannot be locked from the inside. This ensures compliance with BS 8621 standards for easy egress in the event of a fire.

For robust physical security, the latch automatically deadlocks when the door is closed, preventing the bolt from being bypassed or 'carded'. The lock is supplied with an anti-pick, anti-drill, and anti-bump 6-pin cylinder, as well as an anti-saw bolt. A convenient snib feature allows you to hold back the latch or deadlock it as required.

These nightlatches are available in multiple backset sizes (40mm and 60mm) and a choice of finishes, including Brasslux and Chrome Plated. Please select your preferred backset, finish, and case finish from the options below.

Technical Specifications

- **Backset:** 40mm or 60mm (please select from the options below)
- **Bolt Throw:** 20mm
- **Cylinder System:** Yale 6-pin PBS3 & PBS4
- **Keys Supplied:** 2 keys
- **Finishes:** Brasslux or Chrome Plated (please select from the options below)
- **Standards:** BS EN 12209:2003, BS EN 1303:2005, BS EN 8621, CE Marked, Secured by Design
- **Weight:** 1.8kg to 2kg (depending on the selected model)
- **Guarantee:** 10 Year

Key Features

- **Automatic Deadlocking:** The latch automatically deadlocks upon closing the door to prevent carding or bypass attempts.
- **Easy Egress:** The internal handle cannot be locked from the inside, ensuring a quick and easy exit in case of a fire or emergency.
- **High-Security Cylinder:** Supplied with a 6-pin cylinder featuring anti-drill, anti-pick, anti-bump, and anti-carding protection.
- **Snib Function:** Includes a snib to deadlock or hold back the latch as required.
- **Secured by Design:** Approved by Secured by Design (SBD licence held by Yale Retail UK) for peace of mind.
- **Anti-Saw Bolt:** Features an anti-saw bolt for enhanced physical resistance against attack.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that’s become so default it’s basically a synonym for “lock” in a lot of people’s heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada, Yale is an ASSA ABLOY brand**, and Yale’s own regional “About” pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY’s Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY’s acquisition of **August Home** (completed in **December 2017**), which fed into the broader “smart access” push around app-based entry and connected ecosystems.
