How to measure your cylinder lock:

A = Distance to centre of fixing screw hole
B = Distance to centre of fixing screw hole
C = Total length of lock
Example A = 35mm, B = 55mm, C = 90mm
So you will need: 35/55, 90mm length

Specification Summary

Brand	Yale
Product type	Double Euro
Keyway	Yale Platinum

Is Cylinder

Product Description

The Yale Platinum 3 Star Euro Profile Cylinder is a high-security, TS007 3-star Kitemarked lock designed to provide maximum defense against common attack methods, including snapping, bumping, picking, drilling, and extraction.

This cylinder features a sacrificial front section that snaps off when attacked, leaving the inner core intact and secure. It also features integrated grip deflectors on the top of the lock body to prevent intruders from gripping and pulling the cylinder. Please note that due to these grip deflectors, a minor adjustment (such as filing a small channel in the uPVC door) may be required during installation to allow the cylinder to sit correctly. This adjustment is completely hidden once the door handles are re-fitted.

Important Sizing Information: These cylinders are handed and are anti-snap on the external side only. When ordering, please measure from the centre of the fixing screw hole to each end. The sizes are listed with the **INTERNAL** measurement first (e.g., 35/45 represents a 35mm internal and 45mm external size).

Please select your required size and finish (available in Brass or Nickel) from the options below.

Technical Specifications

- **Certification:** TS007:2014 3-Star Kitemarked (KM559658)

- **Security Standard:** BS EN 1303:2015 approved
- **Police Accreditation:** Secured by Design approved
- **Attack Resistance:** Anti-snap, anti-pick, anti-bump, anti-drill, and anti-screw
- **Keyway:** Horizontal keyway with flat reversible dimple keys
- **Keys Supplied:** 3 keys per cylinder (with key code card)
- **Finishes:** Brass or Nickel (please select from the options below)
- **Sizing:** Multiple internal and external size options available (please select from the options below)

Key Features

- **Maximum 3-Star Protection:** Provides standalone TS007 3-star security without the need for additional high-security handles.
- **Sacrificial Anti-Snap Section:** Protects against lock snapping by sacrificing the front of the cylinder, keeping the lock mechanism secure.
- **Grip Deflectors:** Raised ridges on the lock body that prevent tools from gripping and pulling the cylinder out.
- **Reversible Dimple Keys:** Easy-to-use flat keys that can be inserted either way up.
- **Key Code Card:** Included for secure and easy ordering of duplicate keys.
- **Secured by Design:** Meets strict police-approved security standards for home protection.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that’s become so default it’s basically a synonym for “lock” in a lot of people’s heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada, Yale is an ASSA ABLOY brand**, and Yale’s own regional “About” pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY’s Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY’s acquisition of **August Home** (completed in **December 2017**), which fed into the broader “smart access” push around app-based entry and connected ecosystems.
