Specification Summary

Brand	Yale
Product type	Hasp & Staple

Product Description

The Yale Y116B Locking Hasp offers a convenient, all-in-one security solution for securing sheds, gates, and cabinets. Because the lock is integrated directly into the hasp itself, there is no need to purchase or carry a separate padlock.

Manufactured from robust solid steel with a polished chrome finish, this locking hasp is designed for strength and durability. It features concealed fixings when closed, protecting the mounting screws from tampering and opportunistic attacks. To ensure reliable performance in outdoor environments, the hasp has been tested for up to 96 hours of corrosion resistance against the elements.

The Yale Y116B has a width of 115mm and comes complete with two keys, making it a straightforward and dependable security upgrade for your home or garden.

Technical Specifications

- **Brand:** Yale
- **Manufacturer Reference:** Y116B/115/BC
- **Material:** Steel
- **Finish:** Polished Chrome
- **Width:** 115mm
- **Weight:** 180g
- **Keys Supplied:** 2
- **Corrosion Resistance:** Tested up to 96 hours
- **Pack Quantity:** 1

Key Features

- **Integrated Lock:** Features a built-in locking mechanism, eliminating the need for a separate padlock.
- **Concealed Fixings:** Screws are hidden when the hasp is closed to prevent tampering and forced entry.
- **Weather Resistant:** Tested for up to 96 hours of corrosion resistance, making it ideal for outdoor applications like sheds and gates.
- **Solid Steel Construction:** Strong steel body with a polished chrome finish for durable protection.

Brand Profile

Yale

Yale is one of the most recognisable names in locks and home security — the kind of brand that's become so default it's basically a synonym for "lock" in a lot of people's heads. The story starts with **Linus Yale** and the invention/development of the **pin-tumbler** concept that underpins a huge chunk of modern lock design, then scales into mass manufacturing and global distribution through the industrial era.

Today, Yale sits in an interesting split-brain reality:

- **Outside the US & Canada, Yale is an ASSA ABLOY brand**, and Yale's own regional "About" pages explicitly state the brand was purchased by ASSA ABLOY in **August 2000**.
- **In the US & Canada**, the **Yale and August** brands were sold off as part of antitrust remedies tied to ASSA ABLOY's Spectrum acquisition; Reuters and The Verge both describe Yale being retained by ASSA ABLOY outside North America, while the US/Canada Yale brand moved to **Fortune Brands Innovations**.

Product-wise, Yale spans the whole spectrum from **classic mechanical cylinders and door hardware** through to **smart locks and connected access** under the Yale Home umbrella. A key modern milestone was ASSA ABLOY's acquisition of **August Home** (completed in **December 2017**), which fed into the broader "smart access" push around app-based entry and connected ecosystems.
